2" Dia. Standoff with 1-3/4" Multi-Way Adjustable Base
PART #: S10-5045BS

Type 2205 Stainless Steel
Ø1" Hole in Glass
Adjustable from front of glass

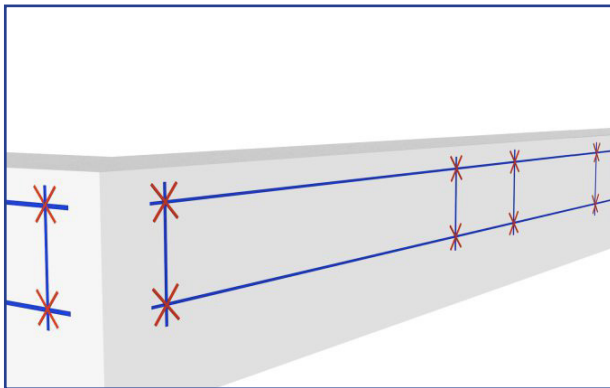

INSTALLATION

The following information will help you streamline set-up and installation.

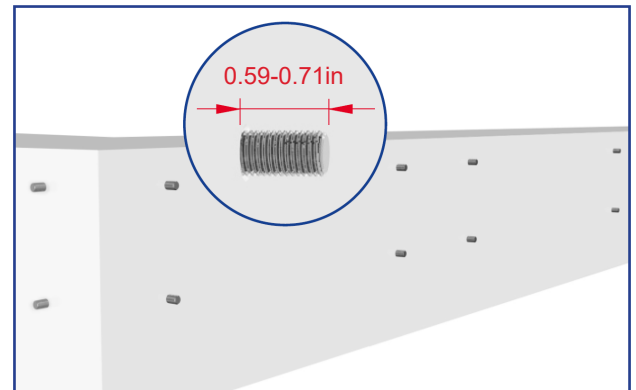

1

Set string lines and mark standoffs spacing to insure hanger bolts are set in alignment.

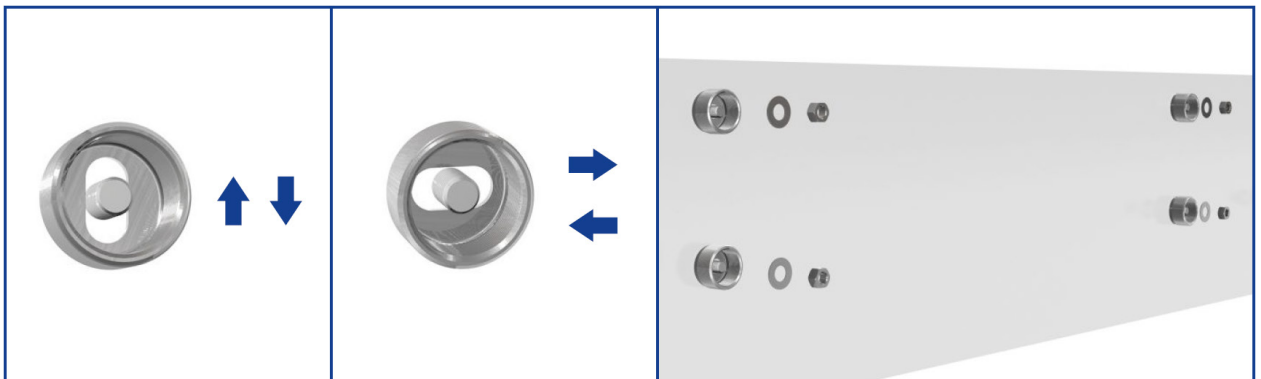

2

The bolts to be chemical fixed into wall leaving 0.59in-0.71in out of the wall for nut and standoff.

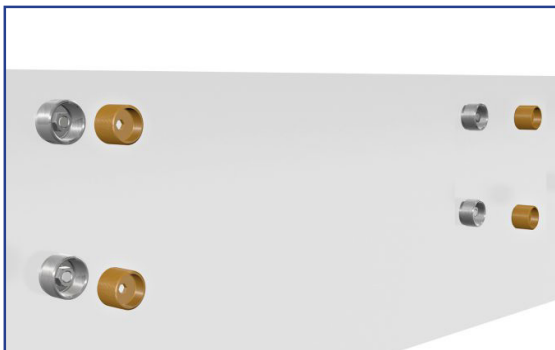

3

Attach backing to the wall and adjust to get more alignment(0.24in-0.48in), then fixed by washer and nut.

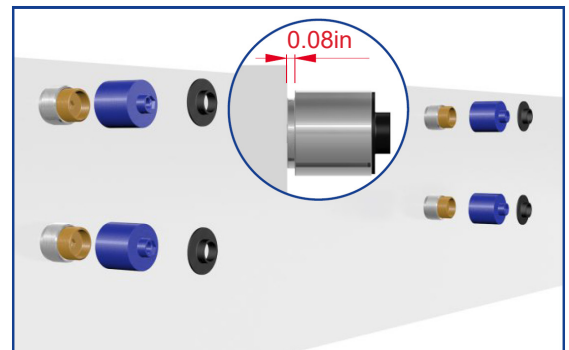

4

Fit locking bushes, tighten all the way.

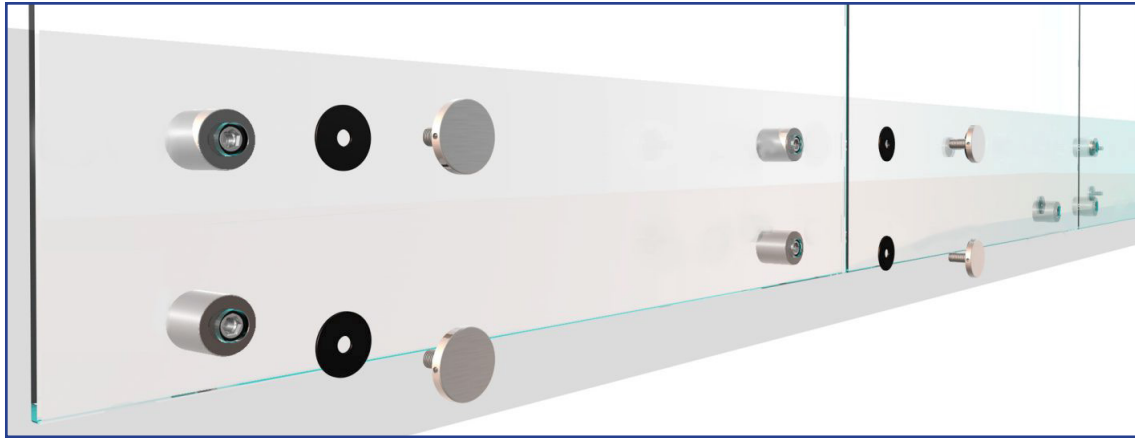

5

Fit bodies(with plastic bush) by winding in, suggest around 0.08in off wall.

6

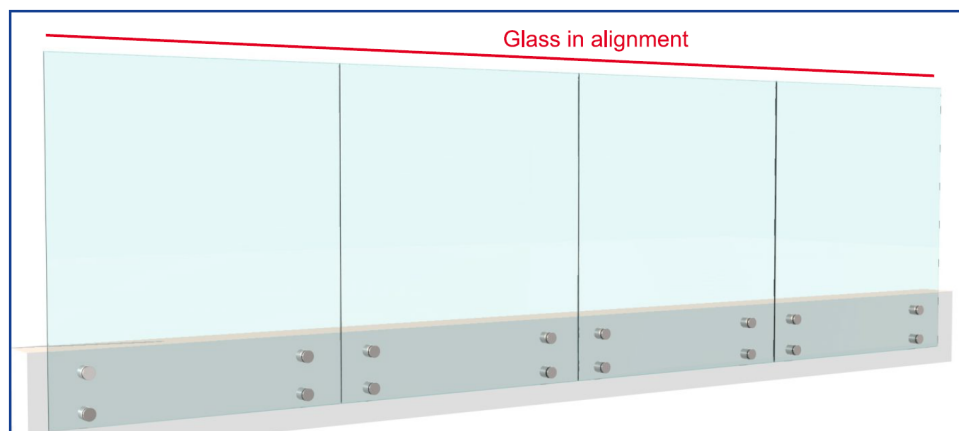

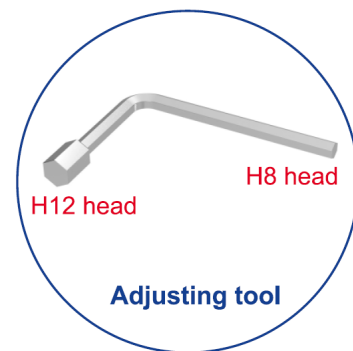

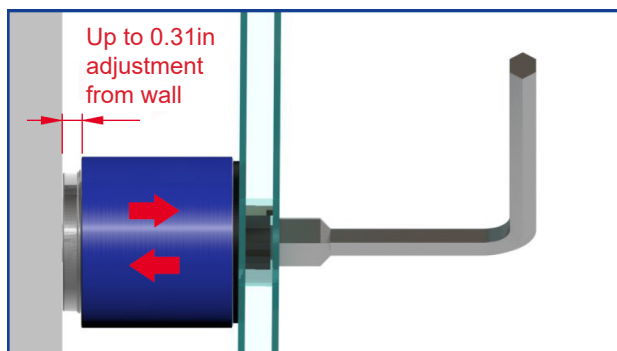

Fit glass with standoff head by hand and check alignment at top.

**7**

If glass panels are not in alignment, do the re-alignment as below steps:

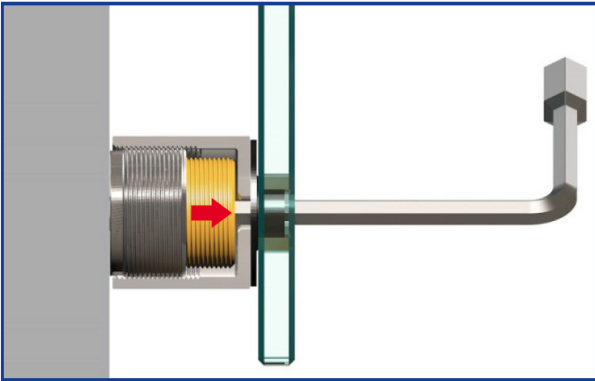

A. Take heads with plastic washer off.

B. Align bodies by winding in or out with H12 head adjusting key until the glass in alignment.

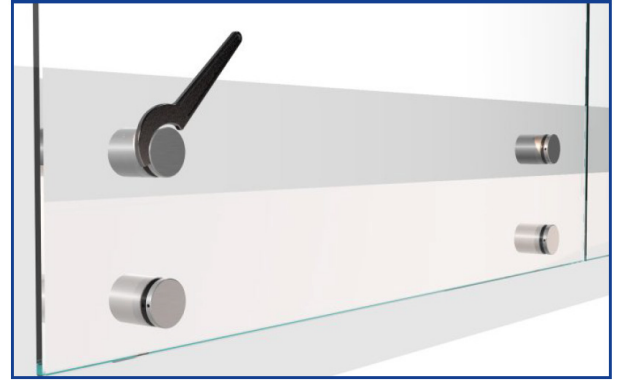

8

Use H8 head adjusting key to run through the bodies, then wind out the locking bushes to the end of aligned body to lock the movement directly when aligning glass.

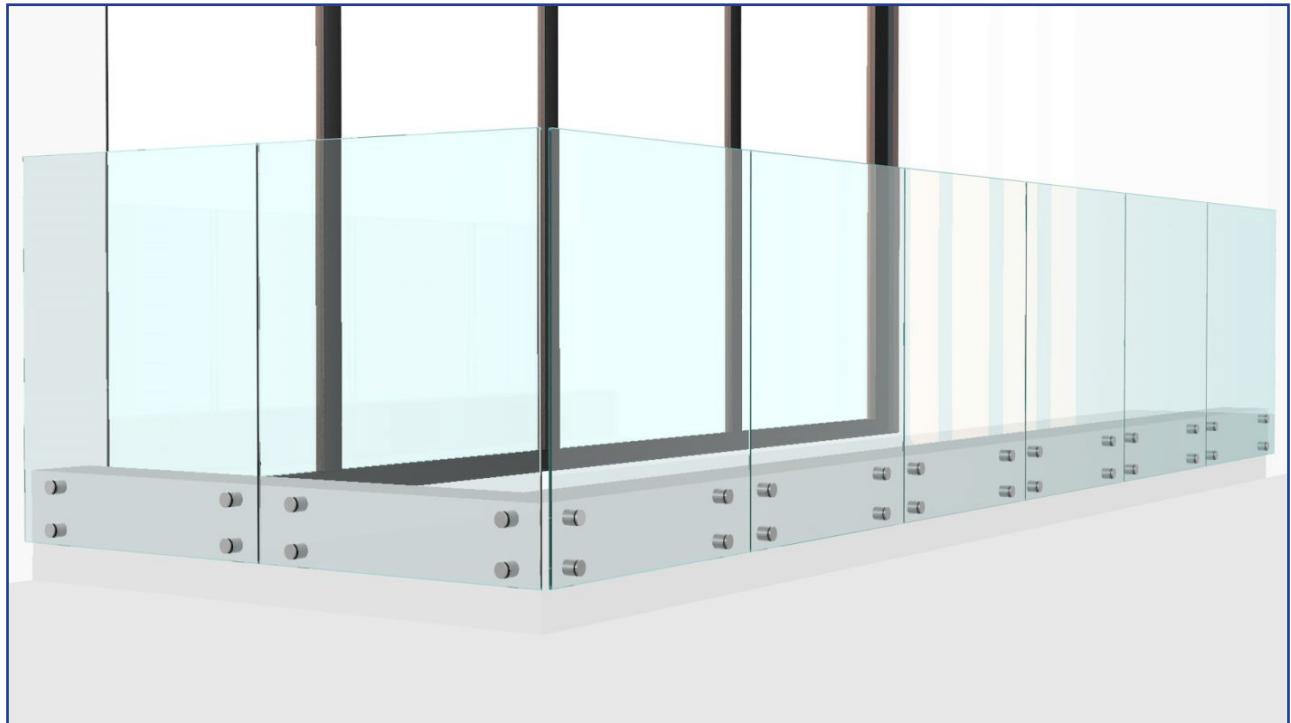

9

Set up the standoff heads with plastic washer and ensure tighten firmly after aligning.
